Rebif[®] 132 micrograms
Solution for injection.

Interferon beta-1a

Subcutaneous use.

4 cartridges

MERCK

Composition:

Each cartridge contains 132 micrograms (36 MIU) of interferon beta-1a in 1.5 ml solution.
Benzyl alcohol, D-Mannitol, L-Methionine, Poloxamer 188, 0.01M Sodium acetate buffer pH3.9
See the package leaflet for further information.

Read the package leaflet before use. For multidose use. Keep out of the reach and sight of children. After first injection use within 28 days. Store in a refrigerator. Do not freeze. Store the cartridge in the original package in order to protect from light. The RebiSmart autoinjector device containing a cartridge of Rebif must be stored in the device storage box in a refrigerator (2°C – 8°C). Should refrigeration be temporarily unavailable, Rebif can be stored by the patient at or below 25°C for up to 14 days then put back in the refrigerator and used before the expiry date. Medicinal product subject to medical prescription.
