主旨: RE: follow-up(2016.5.24-Taiwan's FDA request) regarding edible fats and oils  
附件: TW100.1.pdf

Hi Rainie,

Apologise for the delay in getting back to you on this Rainie.

Producing edible products of this nature is not a large industry in New Zealand. The following establishments are registered by MPI to produce edible tallow and or fat:

RMP ID  
170 - Bakels Edible Oils (NZ) Limited  
PH461 - Ottogi New Zealand Limited  
PH482 - Graincorp Foods NZ Ltd  
ME86 - Taylor Preston Limited  
PH134 - McCallum Industries Limited.

The attached certificate (TW100) is currently used to export edible tallow/oil of animal origin to Taiwan. In specimen certificate I've attached attestations 'c', 'd', 'e' and 'f' are optional depending on the origin of the animals from which the product is derived therefore these attestations will not necessarily all appear on every certificate. For example if the animals are New Zealand origin only then attestations 'd', 'e' and 'f' will not appear on the final export certificate. Let me know if this is not clear.

I hope this information is useful to you.

Regards  
Nick

Hi, Nick

Thank you very much in advance.  
Have a great evening.

Best regards,

(Ms.) Rainie LEE
