SKIN DEFENCE
HIGH PROTECTION IN A LIGHTWEIGHT ESSENCE
We have blended protective ingredients with brightening red algae extract and antioxidant Vitamin C to create a high level broad spectrum daily UV protection. Developed suitable for sensitive skin, this milk-to-water formula efficiently helps protect your skin from multiple aggressors while providing utmost comfort.

MULTI-PROTECTION ESSENCE SPF50 PA++++
Every day, this UV defence with multi-dimensional protection helps efficiently combat the city-life aggressors. With brightening efficacy, it helps preserve the beauty and radiance of your skin all year round.

- **UVA PROTECTION:** Helps protect skin from UVA rays which reach deep within the skin and accelerate the process of skin ageing.
- **UVB PROTECTION:** Helps protect skin from UVB rays that trigger redness and damage the skin surface.
- **ANTI-OXIDANT:** Helps protect skin from external aggressors such as environmental pollution that weaken the skin's ability to remain healthy.
- **ANTI-DULLNESS:** With red algae extract and Vitamin C to brighten skin for a more luminous complexion.

Instantly: skin feels smooth, supple and replumped with moisture.
After 4 weeks: skin appears brighter, more refined and skin tone appears more even.

Experience this lightweight, milk-to-water essence that breaks in contact with skin and creates an invisible protective film, whilst leaving skin non-greasy and moisturised all day.

PROTECT THE BEAUTY OF YOUR SKIN EVERY DAY
Apply onto face and neck, and gently massage onto skin every morning after your daily skincare, before applying make-up. Avoid eye area.

Suitable for sensitive skin. Dermatologically tested.
Non-comedogenic.
