Health Certificate for Export of Live Crustaceans and Molluscs to Taiwan for Aquaculture or Rearing Purpose

According to Fisheries (Fish Disease Control Compliance for Exports and Imports) Regulations 2012

I, the authorized officer, declare and certify that:

The importation of live crustaceans and molluscs for aquaculture or rearing purpose has complied with the following conditions:

(1) Live crustaceans and molluscs have been kept in the water area or aquaculture facility of origin approved by the Department of Fisheries Malaysia for at least fourteen days prior to the shipment, where high mortality of unknown etiology has not occurred among live crustaceans and molluscs during the previous three (3) months.

(2) The water area or aquaculture facility of origin have met one of the following conditions:

☐ I. The following basic biosecurity measures are implemented in the water area or aquaculture facility of origin for at least previous two years:

(I) The listed diseases in the Attached table of the Quarantine Requirements for the Importation of Live Crustaceans and Molluscs are notifiable to the competent authority of the exporting country.

(II) The water area or aquaculture facility of origin has been subjected to an official fish health surveillance scheme according to the procedures described in the Manual of Diagnostic Tests for Aquatic Animals of the Organization for Animal Health (hereafter referred to as the OIE Aquatic Manual) and is certified that the water area or aquaculture facility of origin is free from the listed diseases in the Attached table of the Quarantine Requirements for the Importation of Live Crustaceans and Molluscs for at least the previous two years.

(III) Aquatic animals introducing for breeding have been originated from area or facility where has been free from the listed diseases in the Attached table of the Quarantine Requirements for the Importation of Live Crustaceans and Molluscs, or from the water area or aquaculture facility of origin where the basic biosecurity measures are implemented.

☐ II. Thirty days prior to the exportation of live crustaceans and molluscs, samples have been collected from the water area or aquaculture facility of origin in accordance with the OIE Aquatic Manual. The samples have been tested with negative results for diseases listed in the table of the Quarantine Requirements for the Importation of Live Crustaceans and Molluscs by laboratory that is designated by the country and using the methods described in the OIE Aquatic Manual.

Results of Quarantine Inspection:

Disease Name	Date of Sample Collection	Sampling Amount	Name of the Laboratory Testing the Samples	Method of the Tests	Result of the Test

(1) For the sample collection and testing, if the test methods of listed diseases are not designated in the OIE Aquatic Manual, the test methods of the diseases that have been published in international science journals shall be used.

(2) Three days prior to the shipment from the water area or aquaculture facility of origin, the live crustaceans and molluscs have been inspected and found healthy and free from infestation of ectoparasites or clinical signs of any communicable disease.
