Product no.	Slaughter date	Production date	Freeze date	Intended use	Storage		

Marks

Container number

Seal number

Airwaybill number (if applicable)

II. ORIGIN OF THE PRODUCTS

Product no.	Approval no.	Name and address		
Product no.	Additional approvals	Approval no.	Name and address	
	SLAUGHTER HOUSE			
	CUTTING PLANT			
	PROCESSING PLANT			
	COLD STORE			

Name and address of exporter

Date of shipment on or about

Place of loading

Dispatched from

III. DESTINATION OF THE PRODUCTS

Means of conveyance

Identification of the means of
conveyance

Transit country

Country of destination

Point of entry

Place of destination

Name and address consignee

IV. HEALTH ATTESTATION

I, the undersigned official veterinarian certify that:

1. The beef is derived from cattle born and raised in the Netherlands or from cattle born in a country deemed eligible by Taiwan to export beef and raised in the Netherlands for at least 100 days prior to slaughter in the Netherlands.
2. The beef derived from cattle younger than 12 months (*Bos taurus* and *Bos indicus*).
3. The beef is derived from animals that were slaughtered and processed in an officially approved slaughterhouse and cutting plant under regular veterinary-sanitary supervision of the competent veterinary authority of the Netherlands.
4. The beef is derived from cattle that were slaughtered in accordance with the applicable Netherlands and EU legislation, and have passed ante-mortem and post-mortem inspection under the supervision of a veterinarian.
5. The beef is derived from cattle that were not subjected to a stunning process, prior to slaughter, with a device injecting compressed air or gas into the cranial cavity, or pithing process.
6. The beef does not contain specified risk materials (SRMs), any mechanically recovered meat (MRM), mechanically separated meat (MSM), or advanced meat recovery (AMR) derived from cattle skull and vertebral column, or any tissue or parts derived from cattle 12 months of age and over at the time of slaughter.
7. The Netherlands is recognized by the OIE as a country with a negligible BSE risk.
8. The beef does not contain any specified risk materials with respect to BSE: specified risk materials are removed according to EU-legislation.
9. The Netherlands are free from foot and mouth disease, rinderpest and contagious bovine pleuropneumonia.
10. In the case the animals are imported from a third country:
 - a. The animals are born in the third country;
 - b. The third country (or area) is free from foot and mouth disease, rinderpest and contagious bovine pleuropneumonia;
 - c. The animals are free from clinical signs of any contagious disease;
 - d. The animals are imported directly from the third country and are not transhipped through an infected country (or area).
11. The package of the meat bear a non-modifiable mark showing the registration number of the designated establishment.
12. During slaughtering and processing and before transportation, the meat shall be kept in sanitary condition and be free from contamination by pathogenic organisms or toxic substances and shall be transported in clean and sanitary containers.
