

List of Microorganisms Limits in Cosmetic Products

This rule has been translated into English according to the original Chinese version.

If there is any inconsistency or ambiguity between these two versions, the Chinese version shall prevail.

No.	Product type	Total plate count	Others
1	For children under 3 years of age, eye, mucosa products	Below 100 CFU/g or CFU/mL	<i>Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus or Candida albicans shall not be detected.</i>
2	Other products	Below 1000 CFU/g or CFU/mL
