Press@fsis.usda.gov

WASHINGTON, March 23, 2017 – OK Food, Inc., an Oklahoma City, Okla. establishment, is recalling approximately 933,272 pounds of breaded chicken products that may be contaminated with extraneous materials, specifically metal, the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced today.

The ready-to-eat (RTE) breaded chicken items were produced on various dates from Dec. 19, 2016 through March 7, 2017. A list of the products subject to recall can be found here PDF | View Labels.

The products subject to recall bear establishment number "P-7092" inside the USDA mark of inspection. These items were shipped to retail locations and institutions nationwide.

The problem was discovered on March 21, 2017 after OK Foods Inc. received five consumer complaints stating that metal objects were found in the ready-to-eat chicken products and by FSIS inspection personnel during verification activities. After an internal investigation, the firm identified the affected product and determined that the objects in all the complaints came from metal conveyor belting.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about an injury or illness should contact a healthcare provider.

Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list(s) will be posted on the FSIS website at www.fsis.usda.gov/recalls.

Consumers with questions about the recall can contact Abby Brown at (479) 312-2409. Media with questions about the recall can contact Jordan Johnson at (501) 944-7891.

Consumers with food safety questions can "Ask Karen," the FSIS virtual representative available 24 hours a day at AskKaren.gov or via smartphone at m.askkaren.gov . The toll-free USDA Meat and Poultry Hotline 1-888-MPHotline (1-888-674-6854) is available in English and Spanish and can be reached from 10 a.m. to 4 p.m. (Eastern Time) Monday through Friday. Recorded food safety messages are available 24 hours a day. The online Electronic Consumer Complaint Monitoring System can be accessed 24 hours a day at: http://www.fsis.usda.gov/reportproblem.

USDA Recall Classifications	
Class I	This is a health hazard situation where there is a reasonable probability that the use of the product will cause serious, adverse health consequences or death.

Class II	This is a health hazard situation where there is a remote probability of adverse health consequences from the use of the product.
Class III	This is a situation where the use of the product will not cause adverse health consequences.
