Recall details

Ottawa, April 13, 2017 - The food recall warning issued on April 11, 2017 has been updated to include additional product information. This additional information was identified during the Canadian Food Inspection Agency's (CFIA) food safety investigation. *Please note, there is no identifying code on the individual unit; it appears only on the shipping boxes (case of 48). If you have purchased a product described below but cannot identify the original code, you are advised to check with your place of purchase.

Central Smith Creamery is recalling Wholesome Farms brand Sundae Cup products from the marketplace due to possible *Listeria monocytogenes* contamination. Consumers should not consume the recalled products described below. Food service institutions, such as hospitals and nursing homes, should not serve or use the recalled products described below.

Recalled products

What you should do

If you think you became sick from consuming a recalled product, call your doctor.

Check to see if you have recalled products in your home. Recalled products should be thrown out or returned to the store where they were purchased.

Food contaminated with *Listeria monocytogenes* may not look or smell spoiled but can still make you sick. Symptoms can include vomiting, nausea, persistent fever, muscle aches, severe headache and neck stiffness. Pregnant women, the elderly and people with weakened immune systems are particularly at risk. Although infected pregnant women may experience only mild, flu-like symptoms, the infection can lead to premature delivery, infection of the newborn or even stillbirth. In severe cases of illness, people may die.

- [Sign up for recall notifications by email, follow us on Twitter, or join the CFIA \(Canadian Food Inspection Agency\) community on Facebook \(/about-the-cfia/newsroom/stay-connected/eng/1299856061207/1299856119191\)](#)
- [View our detailed explanation of the food safety investigation and recall process \(/food/information-for-consumers/food-safety-system/basic-html/eng/1374439778888/1374821384212\)](#)

Background

This recall was triggered by [CFIA \(Canadian Food Inspection Agency\)](#) test results. The [CFIA \(Canadian Food Inspection Agency\)](#) is conducting a food safety investigation, which may lead to the recall of other products. If other high-risk products are recalled, the [CFIA \(Canadian Food Inspection Agency\)](#) will notify the public through updated Food Recall Warnings.

The [CFIA \(Canadian Food Inspection Agency\)](#) is verifying that industry is removing recalled products from the marketplace.

Illnesses

There have been no reported illnesses associated with the consumption of these products.
