## What you should do

If you think you became sick from consuming a recalled product, call your doctor.

Check to see if you have recalled product in your home. Recalled product should be thrown out or returned to the store where it was purchased.

It is not safe to taste or eat raw dough or batter regardless of the type of flour used, as raw flour can be contaminated with harmful bacteria such as *E. (Escherichia) coli* O121. Food contaminated with *E. (Escherichia) coli* O121 may not look or smell spoiled but can still make you sick. Symptoms can include nausea, vomiting, mild to severe abdominal cramps and watery to bloody diarrhea. In severe cases of illness, some people may have seizures or strokes, need blood transfusions and kidney dialysis or live with permanent kidney damage. In severe cases of illness, people may die.

## Background

This recall was triggered by findings by the CFIA (Canadian Food Inspection Agency) during its investigation into a foodborne illness outbreak. The CFIA (Canadian Food Inspection Agency) is conducting a food safety investigation, which may lead to the recall of other products. If other high-risk products are recalled, the CFIA (Canadian Food Inspection Agency) will notify the public through updated Food Recall Warnings.

The CFIA (Canadian Food Inspection Agency) is verifying that industry is removing recalled product from the marketplace.

## Illnesses

There have been reported illnesses associated with flour; however, at this time, there have been no confirmed illnesses associated with the product identified in this Food Recall Warning.
