Recall details

Ottawa, July 8, 2017 - The food recall warning issued on July 5, 2017 has been updated to include additional product information. This additional information was identified during the Canadian Food Inspection Agency's (CFIA) food safety investigation.

Industry is recalling Perron brand and Beurre du Lac brand Butter from the marketplace due to possible *Listeria monocytogenes* contamination. Consumers should not consume the recalled products described below.

The following products have been sold in Quebec.

Recalled products

Brand Name	Common Name	Size	Code(s) on Product	UPC (Universal Product Code)
Perron	Butter	454 g (gram)	143 069	7 72622 72454 0
Beurre du Lac	Butter	454 g (gram)	143 032	0 62260 00455 6

What you should do

If you think you became sick from consuming a recalled product, call your doctor.

Check to see if you have recalled products in your home. Recalled products should be thrown out or returned to the store where they were purchased.

Food contaminated with *Listeria monocytogenes* may not look or smell spoiled but can still make you sick. Symptoms can include vomiting, nausea, persistent fever, muscle aches, severe headache and neck stiffness. Pregnant women, the elderly and people with weakened immune systems are particularly at risk. Although infected pregnant women may experience only mild, flu-like symptoms, the infection can lead to premature delivery, infection of the newborn or even stillbirth. In severe cases of illness, people may die.

Background

This recall was triggered by CFIA (Canadian Food Inspection Agency) test results. The CFIA (Canadian Food Inspection Agency) is conducting a food safety investigation, which may lead to the recall of other products. If other high-risk products are recalled, the CFIA (Canadian Food Inspection Agency) will notify the public through updated Food Recall Warnings.

The CFIA (Canadian Food Inspection Agency) is verifying that industry is removing recalled products from the marketplace.

Illnesses

There have been no reported illnesses associated with the consumption of these products.
