

## Control Instructions for French Beef

1. When applying for an inspection, please fill in the code of the batch of products' manufacturer in the "Establishment Number" field for verification. For products required by the Bureau of Animal and Plant Health Inspection and Quarantine to be attached with animal quarantine certificates, please attach the copy of the certificate for verification of the FDA while applying for an inspection.
2. The imported products are permitted once inspected by the FDA as complying with laws regarding food safety and sanitation and related regulations from other authorities such as the Bureau of Animal and Plant Health Inspection and Quarantine.
